

WAX RECOMMENDATION

Lost Nation Cup SuperTour/Eastern Cup Classic

Craftsbury Outdoor Center, Craftsbury, VT

Friday, January 24

9 A.M.

1.4K, Classic Sprint

1.4K lap

<https://www.craftsbury.com/ski/races/lost-nation-cup>

Forecast/Conditions: Overnight low of 20 degrees, mostly cloudy. Temperature at start 25 degrees. Packed powder trails, PistenBully groomed. Partly sunny at race start.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-3 layers of Nordic GripWax Red, corking between layers.

Structure: A Universal grind covered by one pass with the Red Structurite after scraping and brushing the Hot Wax layer or before spraying on the Liquid Paraffin will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
