11 A.M. Adult Pursuit 10K/15K, FS 10K, Classic 11K

All mass start

<http://ashwabaysummitskirace.com>

Forecast/Conditions: Mixed sleet and snow with a low around 25. On race day expect Northeast wind 5 to 6 mph and race time temperature of 31. Expect some new snow mixed in with a solid base.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Black Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-5 layers of Nordic GripWax Yellow, corking between layers. If using skin skis, see our [skins treatment options](#) for best results.

Structure: A universal structure covered by one pass with the Yellow Structurite tool covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
