15K, Skate

Wave starts

3 laps on a 5K loop with shorter distances for youngsters and oldsters

www.utahnordic.com/events/2020/wasatch-citizens-series-race-2

Forecast/Conditions: Overnight low 20, temperature at start in upper 20s with partly cloudy skies. Snow will be fresh and untransformed. Expect a medium firm track so skis with an "all around flex" should be good.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit in a warm room for at least one hour (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: NA.

Structure: A fine universal stone grind structure covered by one pass with the Red followed by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Barry Makarewicz, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
