50K/33K, Classic

Wave start, 16.7K loop

[www.craftsbury.com/events/craftsbury-ski-marathon](http://www.craftsbury.com/events/craftsbury-ski-marathon)

**Forecast/Conditions:** Friday overnight low 20, warming to mid-20s by late morning. Cloudy. Old snow with a PistenBully groomed track.

**Glidewax:** This race is NF only. Apply two layers of Base Performance Blue Hot Wax, scrape and brush, then apply BP Red Hot Wax, scrape and brush. For Liquid Paraffin, apply two layers of Base Performance Blue Hot Wax, scrape and brush, then spray on BP Liquid Red, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin

**Gripwax:** Roughen base with 150 grit sandpaper, heat in a thin layer of Nordic Base Klister Green, smooth, let cool. While tacky, cover with a thin layer of Nordic Klister Red, smooth. Cover with a layer of Nordic GripWax Red and cork smooth.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing BP Hot Wax or before spraying BP Liquid will best suit these conditions

Created by Dave Boucher, Toko Tech Team member since 1999.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
