

WAX RECOMMENDATION

IMD Junior National Qualifier Skate Sprint

Rendezvous Ski Trails, West Yellowstone, MT

Saturday, February 1

9 A.M. Qualifier, Noon Heats

Skate Sprint

www.skirunbikemt.com/jnq

Forecast/Conditions: Overnight cloudy with a low around 21. Race day cloudy, temperature at start in the upper 20s, mid-30s by early afternoon. Expect clean packed powder track conditions. Rendezvous snow typically skis colder than air temperature suggests.

Glidewax: IMD Waxing Rules apply to this event: U16 & older, pure Fluorinated waxes are NOT allowed. Only NF, LF and HF waxes allowed. U14 and younger: Only Non-Fluorinated (NF) waxes are allowed. For U16 & older Qualification, apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, let sit for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin. For afternoon heats, test HP Red/Blue mix or straight HP Red. For U14 and under, apply BP Blue Hot Wax/BP Red Hot Wax mixed 2:1, scrape and brush.

Structure: A universal structure will best suit these conditions. For afternoon heats, cover with 1 pass of the Red Structurite tool after scraping and brushing Hot Wax or before spraying Liquid Paraffin. As temperature rises, add structure if needed for afternoon heats using the Red Structurite tool.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
