

# WAX RECOMMENDATION

## **CXC Jr/Youth Cup GLD JNQ Classic**

Michigan Tech Nordic Ski Trails, Houghton, MI

Sunday, February 16

9 A.M. Males SR 20K, 10 A.M. U20/U18 10K

11:45 A.M. Males U16 5K

Noon Females SR 15K, 1 P.M. U20/U18 10K

1:45 P.M. Females U16 5K

Classic, Mass start. 1 to 4 laps on 5K course

**Forecast/Conditions:** Saturday night a 30 percent chance of snow showers before 1 A.M. Mostly cloudy, with a low around 14.

Sunday mostly cloudy, with race time temperatures 16-19. Expect machine worked and packed trail with firm tracks.

**Glidewax:** Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Blue, corking between layers. Those needing more kick can consider alternating layers of GripWax Red and Blue and mixing well.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying Liquid Paraffin will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
