

# WAX RECOMMENDATION

## Honey Bear Classic

Big Bay Pathway, Big Bay, MI

Saturday, February 8

1 P.M.

24K/12K, Classic, Mass start

1-2 laps

[Link to event website](#)

**Forecast/Conditions:** Friday night a slight chance of flurries before 1 A.M. Mostly cloudy, with a low around 10F. North wind 5 to 10 mph becoming light after midnight. Saturday partly sunny, with event temperature of 20.

**Glidewax:** Apply Performance Black Hot Wax, scrape and brush, then apply Performance Red Hot Wax, scrape and brush. For Base Performance Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply alternating layers of Nordic GripWax Blue and Nordic GripWax Red, corking between layers. Final layer should be Blue.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing final hot wax layer or before spraying Liquid Paraffin will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
