

WAX RECOMMENDATION

Alta Vista Freestyle

Alta Nordic Trail, Alta, WY

Saturday, February 22

10 A.M.

20K, 10K, 6K, 2.5K & $\frac{1}{2}$ K (kids), Freestyle technique

Mass start

Multiple loops

<https://tvtap.org/event/alta-vista-freestyle-race/>

Forecast/Conditions: Overnight low 10F, temperature at start near 20. Fresh snow, firmly packed. Clear and sunny.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Blue, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
