Wednesday, February 12

1 P.M. Boys, 2 P.M. Girls

Relay, Mass start

4 x 3K relays (2 legs classic/2 legs freestyle)

www.skinnyski.com/racing/display.asp?Id=48475

Forecast/Conditions: Overnight low of 12 rising to 20 for the races. A 70 percent chance of snow in the morning, and 50 percent during the races. Wind from west at 5-15 mph with gusts to 25. Cloudy. Expect a well-maintained course with abrasive, wind-blown snow on top.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, sprinkle on X-cold Powder, iron in together, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply additional layers of Nordic GripWax Red, corking between layers.

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
