Friday, February 14

9 A.M.

10K Men, 5K Women, U18, U20, Senior

5K U16, 3K-1K for younger racers

Skate, Interval starts

Race info [here](#)

Forecast/Conditions: Soldier Hollow is skiing fast with very hard snow. Thursday night low in the mid-teens, clear skies. Friday there is a slight chance of snow midday. Temperature for 9 A.M. starts in the mid-20s, very light wind, mostly sunny. At noon, temperature will be around 40 with increasing cloud cover.

Glidewax: IMD wax restrictions: U14 and younger, NF only. U16 and older, no topcoats. For morning races, apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue/HP Red Hot Wax mixed 1:1, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin. For later races, after the P or BP Blue base, use HP or BP Red Hot Wax/Yellow Hot Wax mixed 1:1, or HP or BP Liquid Yellow.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions. For afternoon races, use the Yellow Structurite tool.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
