

WAX RECOMMENDATION

Mayor's SuperTour and CXC Junior Cup

Theo Wirth Park, Minneapolis, MN

Sunday, February 16

9 A.M. Qualifiers, 2 P.M. Heats

1.6K Men Sprint, 1.3K Women Sprint, Freestyle

<https://www.loppet.org/events/mayorschallenge/>

Forecast/Conditions: Thaw/refreeze is expected on Saturday. Overnight low of 16, rising to high teens for the A.M. races and low 20s for the P.M. races. Partly sunny and calm. Expect a machine worked solid racing surface, but uphill deteriorating throughout the day.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, sprinkle on X-cold Powder, iron in together, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, sprinkle on X-cold Powder, iron in together, scrape and brush, then spray on HP Liquid Red, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

Structure: A fine or universal structure covered by one pass with the Red Structurite tool followed by one pass of the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
