

WAX RECOMMENDATION

NH Coaches Series Race 2 - Updated!

White Mountain Regional High School, Lancaster, NH

Saturday, February 22

10:30 A.M.

5K, Skate

Wave start, 5K lap

<http://www.nhnordiccoaches.org/nh-series>

Forecast/Conditions: Overnight low of 6F, clear. Temperature at start 15 warming to 25 for later start times. Mix of fresh and granular packed snow on trails, snowmobile groomed. Partly cloudy during race day.

Glidewax: This race is NF only. Apply Base Performance Blue Hot Wax, scrape and brush, and then repeat for added durability. For Liquid Paraffin, apply BP Blue Hot Wax, scrape and brush, then spray on Base Performance Liquid Blue, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: N/A

Structure: A cold grind covered by one pass with the Blue Structurite after scraping and brushing the final hot wax layer or before spraying Liquid Paraffin will best suit these conditions.

Racing - Service

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
