

WAX RECOMMENDATION

North End Classic

North End Trails, Cable, WI

Sunday, February 9

10 A.M. 25K/12K Classic

10:05 A.M. Cookie Classic

All Mass starts

<https://northendskiclub.org/north-end-classic-race/>

Forecast/Conditions: Expect Saturday night low around 10F with temperature rising to low 20 during races. Snow showers expected. Expect the race course to be in excellent condition with firm, freshly groomed newer snow.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax/HP Red Hot Wax mixed 1:1, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-5 layers of Nordic GripWax Red, corking between layers.

Structure: A cold-linear grind alone or covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
