

# WAX RECOMMENDATION

## Tour of Bogus

Bogus Basin, Boise, ID

Sunday, February 23

10 A.M.

5K/10K/25K, Skate

Mass start

1 loop

<https://www.bbnt.ski>

**Forecast/Conditions:** Saturday night low of 24, Sunday high of 32, 29 at race start with 80 percent humidity. Snow has stayed cold and untransformed throughout week. Chance for new snow both Saturday and Sunday.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Red, let sit for 60 minutes in a warm room (overnight is best), polish with the Polishing Brush Liquid Paraffin. Junior Skiers: Apply Base Performance Red Hot Wax, scrape and brush.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
