## Wisconsin Biathlon Cup Race #7

Blackhawk Ski Club, Middleton, WI

Sunday, March 1

11 A.M.

12K PPSS Open

5K PPSS Junior & 5K Novice PP

<http://www.wisconsinbiathlon.com>

**Forecast/Conditions:** Saturday night low around freezing and temperature rising into the mid-40s will make for wet slushy snow. Expect the race course to be soft and break down with lap traffic.

**Glidewax:** Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Blue Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let stand for at least one hour in a warm room (overnight is best), then polish with the Polishing Brush Liquid Paraffin.

**Structure:** A warm/wet grind alone or covered by one pass with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

# Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
