

WAX RECOMMENDATION **TOKO**[®]

Intermountain Youth Championships

Little Ski Hill, McCall, ID

Saturday, February 29

9 A.M.

1K/2K/3K, Skate

Interval start

1-2 laps

<http://mccallnordic.com/racing/youth/>

Forecast/Conditions: Friday night low of 28, 29 at start with a high of 35. Warming Friday temperatures may transform snow by Saturday. Cloud cover of 80 percent with a 70 percent chance of snow during the race.

Glidewax: IMD Waxing Protocols for all age classes at the Youth Ski Championship: No use of any wax containing fluorocarbons is allowed. Apply Base Performance Red Hot Wax, scrape and brush. For BP Liquid Paraffin, apply BP Blue Hot Wax, scrape and brush, then spray on BP Liquid Red, let sit for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin.

Structure: A universal structure covered by one pass with the Red Structurite tool followed by one pass with the Blue Structurite tool after scraping and brushing BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Created by Randy Anderson, Toko Tech Team member since 2015. Randy@TokoUS.com

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
