Stevens Pass Nordic Center 5 miles east of Stevens Pass, WA

Saturday, 7 March

10:30 A.M. Zeroing, 11:30 A.M. Race

12.5K Men 10K Women

Mass Start

See website for details incl. WA Cup NF and LF Only rules

<http://www.wabiathlon.org>

Forecast/Conditions: Overnight low of around 26F with an 75% chance of light snow falling at near 32F at race time. Snowpack should be mostly transformed and firm with temps rising to around 36F by race completion.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply Performance or High Performance Yellow Hot Wax, scrape and brush. For HP Liquid Paraffin, apply Performance Red Hot Wax, scrape and brush, then spray on HP Liquid Yellow, let sit in a warm room for at least one hour (overnight is best), polish with the Polishing Brush Liquid Paraffin. Topcoats can be added 1 hour after applying HP Liquids if desired.

Gripwax: NA

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
