

WAX RECOMMENDATION

Hoigaard's/Breadsmith Slush Rush

Hyland Park Reserve, Bloomington, MN

Saturday, 7 March

9:00 A.M. masters 10K freestyle

9:05 A.M. juniors 5K freestyle

Mass starts, 5K loop

Forecast/Conditions: Overnight low of 32, rising to 42 for the races. The course will be prepared with a PistenBully Friday evening, but will remain soft and become softer with skier traffic. Mostly sunny, wind from the south.

Glidewax: Apply Performance Black Hot Wax, scrape and brush, then apply High Performance Yellow Hot Wax, scrape and brush.

Structure: A wet or universal structure will best suit these conditions. The wet grind will not require additional hand structure. A universal should be covered by one pass with the Yellow Structurite tool followed by a single pass with the Blue Structurite tool after scraping and brushing HP Hot Wax.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
