10:15 A.M. College/MU20/MU18, 12:15 P.M. U16

10K/15K/5K, Freestyle

Interval start, 1-3 laps of 5K course

[Event Website](#)

Forecast/Conditions: Saturday night partly cloudy with a low around 23. Sunday mostly sunny with race temperatures ranging from 27-34. Recent snowfall will be machine worked and packed. Expect track to be glazed but not wet due to low sun angle and light winds.

Glidewax: Apply Base Performance Red Hot Wax, scrape and brush. Spray on Base Performance Liquid Paraffin Yellow, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Red Hot Wax, apply BP Yellow Hot Wax, scrape and brush.

Gripwax: n/a

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing final Hot Wax or before spraying Liquid Paraffin will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
