

WAX RECOMMENDATION

Quarry Road Opener

Quarry Road Trails, Waterville, ME

Sunday, December 13

9:30 A.M.

5K-10K, Skate

Interval start

2-4 1.8K laps

<http://quarryroad.org/http://quarryroad.org/>

Forecast/Conditions: Overnight low 28 degrees, temperature at start 30. Mix of manmade with some natural snow, PistenBully groomed. Sleet overnight into midday, 60 percent chance of new precipitation.

Glidewax: Apply Base Performance Red Hot Wax, scrape and brush. Spray on Base Performance Yellow Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Red Hot Wax, apply BP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing BP Hot Wax or before spraying BP LP will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
