Cote Dame Marie

Hanson Hills Recreation Area, Grayling, MI

Saturday, January 16

10 A.M Wave Starts

13K Senior, 7.5K Juniors, Freestyle

No day of race registration!

hansonhills.org

Forecast/Conditions: Friday night mostly cloudy, with a low around 24 and a 30 percent chance of new snow. Saturday mostly cloudy, 28 at start rising to 30 at finish. Expect fresh packed powder over a hard base.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Liquid Paraffin Red, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red Hot Wax, scrape and brush.

Gripwax: NA

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
