

WAX RECOMMENDATION

TOKO[®]

Bogus Challenge Obligatory Classic

Bogus Basin Nordic, Boise, ID

Saturday, January 23

3 P.M.

15K/5K/1K, Classic

Interval start, 2 laps

<https://www.bbnt.ski/race>

Forecast/Conditions: Expect transformed and fast snow with firm, glazed classic tracks. Friday night low of 22, Saturday high of 25 cooling to 24 at start with mostly clear skies.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green, smooth, let cool. Then apply Nordic Klister Blue, smooth and let cool. Cover with 1 light layer of GripWax Red and lightly cork. Skins will be a good alternative in these conditions. For best performance, apply Eco Skin Proof the day before the event.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
