

# WAX RECOMMENDATION

# TOKO<sup>®</sup>

## Krazy Klassic

Huron Meadows MetroPark, Brighton, MI

Sunday, January 10

10 A.M

12K/5K, Classic, 2.5K loop

No day of race registration!

<http://nordicskiracer.com/frosty/>

**Forecast/Conditions:** Saturday night mostly cloudy, with a low around 23. Sunday mostly cloudy, 26 at start rising to 30 at finish. Expect a mix of transformed manmade and natural snow with some dirt mixed in over a hard base.

**Glidewax:** Apply Base Performance Blue Hot Wax, scrape and brush. Spray on BP Liquid Paraffin Red, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4 alternating layers of Nordic GripWax Red and Base Wax Green, corking between layers. Final layer should be Red.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying Liquid Paraffin will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
