

WAX RECOMMENDATION

25th Annual Alaska Ski For Women

Kincaid Park, Anchorage, AK

Self-scheduled event between

Sunday, February 7, and Thursday, February 11

4K, Freestyle

<https://alaskaskiforwomen.org>

Forecast/Conditions: For the five days, overnight lows around zero F, morning temperatures in the low to mid-single digits F, rising to a high around 10. Well-groomed clean snow. Mostly sunny, slight chance of new snow during the five days of the event.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply another layer of BP Blue Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Blue, corking between layers.

Structure: A cold universal stonegrind covered by one light pass with the Blue Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
