

WAX RECOMMENDATION

Boulder Mountain Tour

Harriman Trail, Ketchum, ID

This is a self-scheduled event February 1-7 on a course of your choosing. This wax tip is for the traditional Harriman Trail course for Thursday and Friday, February 4-5

Tip assumes a 10 A.M. start

30K or 15K, Freestyle or Classic

Forecast/Conditions: Winter storm arriving Tuesday-Wednesday, with 5-9 inches possible along the course over a well consolidated base of snow from the last storm. Overnight low Wednesday night will be in the single digits, with high on Thursday near 30. Overnight low Thursday night in the low teens with high on Friday near 31. Chance of snow Thursday night. Expect packed powder with firm tracks.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red Hot Wax, scrape and brush.

Gripwax: Rough kick zone with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 layers of Nordic GripWax Red, corking smooth between layers. Cover with 1 layer of Nordic Blue Grip Wax and cork smooth.

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
