

WAX RECOMMENDATION

American Birkebeiner Saturday

Birkebeiner Trails, Cable, WI

Saturday, February 27

Skate

43K Birkebeiner, 26K Kortelopet & 14K Prince Haakon

[Link to Birkie Wave Start Details](#)

Forecast/Conditions: Chance of Friday night snow showers with a low in the high 20s. Skies will become mostly sunny as the temperature slowly rises into the mid- to high 30s by late afternoon. Expect clean, firm (for early skiers), machine-groomed tracks that will break down as the temperature rises.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Yellow Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red/BP Yellow Hot Wax mixed 1:1, scrape and brush.

Gripwax: n/a

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
