

WAX RECOMMENDATION

American Birkebeiner -- Thursday

Birkebeiner Trails, Cable, WI

Thursday, February 25

SKATE

43K Birkebeiner, 26K Kortelopet & 14K Prince Haakon

[Link to Birkie Wave Start Details](#)

Forecast/Conditions: Partly cloudy skies Wednesday night will see overnight the temperature drop into the low teens. Thursday the temperature will slowly rise to the mid-20s by late afternoon under partly sunny skies. Expect clean, firm, machine-groomed tracks.

Glidewax: All skiers, apply Base Performance Blue Hot Wax, scrape and brush. For early starters, spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Blue Hot Wax, scrape and brush. For skiers starting after 10:30 A.M., spray on Base Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Red Hot Wax, scrape and brush.

Gripwax: n/a

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
