

# WAX RECOMMENDATION

## Alta Vista Freestyle

Alta Winter Trail, Alta, WY

Saturday, February 20

10 A.M.

2.5K/6K/10K/20K, Freestyle

Interval start

2 laps

<https://tvtp.org/events/av21>

**Forecast/Conditions:** Several inches of new snow throughout the week continuing through Friday night and Saturday. Course will be groomed both Friday night and Saturday morning. Friday night low of 19, start temperature 23. Expect a soft track with fresh snow.

**Glidewax:** Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply an additional layer of BP Blue Hot Wax, scrape and brush.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying BP LP will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
