

WAX RECOMMENDATION

Hard'ack Challenge

Hard'ack Rec Center, St. Albans, VT

Sunday, February 28

10 A.M.

8K, Skate

Interval start

2 laps, 4K loop

More info [here](#)

Forecast/Conditions: Saturday overnight low in the low 30s, cloudy. Sunday will be partly sunny with the temperature at start 32. Expect wet snow.

Glidewax: Apply Base Performance Red Hot Wax, scrape and brush. Spray on Base Performance Yellow Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Red Hot Wax, apply BP Yellow Hot Wax, scrape and brush.

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Racing - Service

Created by Dave Boucher, Toko Tech Team member since 1999.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
