

WAX RECOMMENDATION **TOKO**[®]

Wasatch Citizen Series Race #5

White Pine Touring Center Farm, Park City, UT

Saturday, February 20

9:30 A.M. Juniors U16 and under

10:30 A.M. Juniors 16 and older, all adults

20K Skate, 15 second Interval Start

<https://utahnordic.org/wasatch-citizens-series-race-1/>

Forecast/Conditions: Overnight low 23, temperature in the upper 20s during the race. Snow possible before and during the race. Expect a soft track with a lot of new, fresh snow.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush for Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply a layer of BP Red Hot Wax, scrape and brush.

Gripwax: NA

Structure: A fine universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying BP Liquid will best suit these conditions.

Created by Barry Makarewicz, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
