

# WAX RECOMMENDATION

## Michigan HS Championships Pursuit - Skate

Michigan Tech Nordic Ski Trails, Houghton, MI

Friday, February 12

3 P.M. - 5 P.M.

5K Freestyle, Interval start

Single lap course

[www.skitigers.com/2021-mi-state-championships.html](http://www.skitigers.com/2021-mi-state-championships.html)

Forecast/Conditions: Thursday night snow showers likely with a low around -2F and northwest wind around 5 mph. New snow accumulation of around an inch possible. Friday snow showers likely with race temperature around 8F and northwest wind 10 to 15 mph. New snow accumulation of 1 to 3 inches possible. Track will be semi-soft.

Glidewax: Apply Base Performance Blue Hot Wax and X-Cold powder mixed 1:1, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax/X-Cold mix, apply an additional layer of BP Blue Hot Wax mixed with X-Cold powder 1:1, scrape and brush.

Gripwax: n/a

Structure: A fine grind with no additional structure will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
