

# WAX RECOMMENDATION

## Michigan HS Championships Pursuit – Classic

Michigan Tech Nordic Ski Trails, Houghton, MI

Saturday, February 13

9 A.M. - 11 A.M. 5K Classic, Interval start

Single lap course

[www.skitigers.com/2021-mi-state-championships.html](http://www.skitigers.com/2021-mi-state-championships.html)

**Forecast/Conditions:** Friday night snow showers likely, mainly before 1 A.M., with a low around -2F. Saturday snow showers likely. Mostly cloudy and cold, temperature 1F-4F. Chance of precipitation is 60 percent with less than 1 inch accumulation. Expect semi-soft track and fine-grained snow.

**Glidewax:** Apply Base Performance Blue Hot Wax and X-Cold powder mixed 1:1, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax/X-Cold mix, apply an additional layer of BP Blue Hot Wax mixed with X-Cold powder 1:1, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-3 layers of Nordic GripWax X-Cold, corking between layers. Add Nordic GripWax Blue underfoot for more grip.

**Structure:** A fine grind with no additional structure will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
