Saturday, February 20

1:30 P.M. 750m U14 and under Freestyle Sprint prologue

3 P.M. U16+ 1.5K Freestyle Sprint prologue

Individual starts

<https://www.loppet.org/events/mayorschallenge>

Forecast/Conditions: Overnight low of 1F rising to 22 at the start. Meager snowfall earlier in the week will be mixed in with manmade snow. Course will be worked with PistenBully. Partly sunny with 5-10 mph winds from SSE.

Glidewax: Apply Base Performance Blue Hot Wax, iron, let cool, scrape and brush. Spray on Base Performance Red Liquid Paraffin, let stand overnight, then polish with the Yellow Liquid Paraffin Polishing Brush. If you do not have LP spray, apply BP Blue Hot Wax, iron, let cool, scrape and brush, followed by a layer of BP Red Hot Wax, scraped and brushed.

Gripwax: N/A

Structure: A fine structure covered by one pass with the Red Structurite tool followed by a single pass of the Blue Structurite tool after scraping and brushing the final BP Hot Wax layer or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
