

WAX RECOMMENDATION

Vasaloppet USA

Vasaloppet Nordic Trails, Mora, MN

Saturday, February 20

8:20 A.M. 47K Freestyle, 12:20 P.M. 37K Freestyle

Start anytime within your assigned period

Two loop course

<https://vasaloppet.us>

Forecast/Conditions: Overnight low of -6F rising to zero F for the early start and 14 for the later start. New snow earlier in the week will be mixed in with manmade snow. Mostly sunny with a slight wind. Expect the course to be in excellent condition.

Glidewax: Apply Base Performance Blue Hot Wax, sprinkle on X-cold Powder, iron together, let cool, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Yellow Liquid Paraffin Polishing Brush. If you do not have LP spray, apply the first layer of BP Blue Hot Wax without X-cold Powder, then apply a second layer of BP Blue Hot Wax, sprinkle on X-cold Powder, iron in together, let cool, scrape and brush.

Gripwax: N/A

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
