

# WAX RECOMMENDATION

## Kongsbergers Ozbaldy

Cabin Creek Exit 63, Hwy 90, Snoqualmie Pass, WA

Saturday, March 6, and Sunday, March 7

Self-scheduled event, Opening days

Wax tip assumes a 7 A.M. start

50K/10K Freestyle, 10K lap

<http://www.kongsbergers.org>

Forecast/Conditions: Clean, 55" and fully transformed snow pack groomed daily at near freezing temperatures. Overnight low 32 Friday night and 28 Saturday night with daytime highs of 39. A 40 percent chance of rain Saturday afternoon tapering off with a 40 percent chance of snow Sunday morning.

Glidewax: Apply Base Performance Red Hot Wax, scrape and brush. Spray on Base Performance Yellow Liquid Paraffin, let stand overnight or longer, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Yellow Hot Wax, scrape and brush.

Gripwax: NA

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying BP Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
