

WAX RECOMMENDATION

Maine BKL Mini-Fest

Quarry Road Trails, Waterville, ME

Sunday, March 7

10 A.M.

500m-2K, Skate

Individual start

1 lap

<http://quarryroad.org/http://quarryroad.org/>

Forecast/Conditions: Overnight low 9F, temperature at start 20.

Mix of packed powder and granular snow, PistenBully groomed. Mostly sunny on race day.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Liquid Paraffin Red, let stand overnight, then polish with the Polishing Brush Liquid Paraffin.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final BP Hot Wax or before spraying BP Liquid will best suit these conditions.

Created by Stuart Kremzner, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If an event allows fluorinated waxes and you choose to use them, use High Performance or Performance (Liquid Paraffin or Hot Wax) of the same color (Yellow, Red or Blue), as the temperature ranges are the same. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
