

WAX RECOMMENDATION **TOKO**[®]

Gore Mtn. Skate Race NYSSRA Opener

Gore Snow Bowl, North Creek, NY

Sunday, December 19

10 A.M.

Junior Boys/Girls 5K, all others 7.5K, Skate

Multiple laps

<https://www.skireg.com/gore-mountain-opener>

Forecast/Conditions: Overnight low 22, temperature at start 25, cloudy skies. Manmade transformed snow with fresh powder tilled in.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
