

WAX RECOMMENDATION **TOKO**[®]

Paco's Holiday Distance Skate & JNQ

Auburn Ski Club, Soda Springs, CA

Sunday, December 19

9:30 A.M.

5K and 10K, Freestyle

Interval start

1-2 laps

asctrainingcenter.org

Forecast/Conditions: Overnight low 20, temperature at start 30, high of 36. Cloudy with a 20 percent chance of snow showers.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, start with BP Blue Hot Wax, scrape and brush, and then apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
