## Race For Snow

Weston Ski Track, Weston, MA

Sunday, January 16

8 A.M. BKL, 9:20 A.M Women, 9:50 A.M. Men

5K or 10K, Skate

Mass start

5 to 10 laps

Forecast/Conditions: Overnight low of 6F rising to 15 by race end. Cloudy skies. Manmade snow.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply HP Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Rob Bradlee, Toko Tech Team member since 1999. [rob@freedomtrailnordic.com](mailto:rob@freedomtrailnordic.com)

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
