

WAX RECOMMENDATION TOKO®

Winona Forest Try-It Classic and Skate

Winona Forest, Mannsville, NY

Saturday, January 22

9 A.M.

12.5K Classic, 18K/9K Skate

Rolling start

1-2 laps depending on distance

<https://www.skireg.com/winonaforesttryit>

Forecast/Conditions: Overnight low -5F, temperature at start 2F, fresh fallen machine groomed snow. Temperature at noon 13 under partly cloudy skies with light wind.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Spray on Base Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, after scraping and brushing BP Blue Hot Wax, apply BP Blue Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3 light layers of Nordic GripWax Blue, corking between layers.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
