

WAX RECOMMENDATION

Colorado Biathlon Pursuit

Snow Mountain Ranch, Granby, CO

Sunday, January 9

9:30 A.M. Zero, 10:35 A.M. First wave start

<https://www.coloradobiathlon.org/schedule.html>

Forecast/Conditions: Overnight low of 7F, air temperature in the mid-teens by the start times under sunny skies with some wind.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on HP LP Blue, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, and then apply HP Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine structure will best suit these conditions.

Racing - Service

Created by Stephen White, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
