

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## Teacup Classic

Teacup Snow Park, Mt. Hood, OR

Sunday, February 13

11 A.M. - 11:45 A.M.

15K, 5K, 2K, Classic

Wave start

1 - 3 loops

<http://www.teacupnordic.org>

**Forecast/Conditions:** Saturday night low of 28. Sunday mostly sunny, high near 45. Snow will be hard packed, icy and abrasive at the start, softening as the temperature warms.

**Glidewax:** Apply High Performance Red Hot Wax, scrape and brush. Spray on High Performance Yellow Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green, cork smooth, let cool. Then apply a layer of Nordic Klister Red, smooth and let cool.

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Colin Mahood, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the High Performance (Liquid Paraffin or Hot Wax) and substitute the Performance or Base Performance wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
