

WAX RECOMMENDATION **TOKO**[®]

HURTathon Skate Race

Greenfield Brookhaven Winter Park, Porters Corners, NY

Saturday, February 12

10 A.M.

6 KM and 12 KM, Freestyle technique

Mass start

Multiple laps

Forecast/Conditions: Overnight low 34, temperature at start 39. Packed powder under cloudy skies with a 40 percent chance of mixed precipitation during the race.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Spray on HP LP Yellow, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Yellow Hot Wax, scrape and brush, and then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
