

WAX RECOMMENDATION **TOKO**[®]

Kincaid Sprint Relay

Kincaid Park, Anchorage, AK

Sunday, February 13

Noon

2X2X2 Sprint Relay

2 Person, 2 Kilometer, 2 Laps

www.anchoragenordicski.com/amh-anchorage-cup-series/

Forecast/Conditions: Saturday night cloudy with snow likely. Low in the 20s. Sunday snow likely with high 25 to 35. Conditions should be excellent. Transformed snow mixed with new snow.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on HP LP Red, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 layers of Nordic GripWax Red, corking between layers.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Patrick McGownd, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
