

WAX RECOMMENDATION **TOKO**[®]

Mammoth Marathon

Tamarack Lodge and XC Center, Mammoth Lakes, CA

Sunday, April 3

9 A.M.

10K/21K/42K, Freestyle

Mass start per distance

Multiple loops

<https://mammothmountain.com>

Forecast/Conditions: Overnight low 31, temperature at start 37, high of 45. Partly cloudy and windy with transformed and dirty snow.

Glidewax: Apply High Performance Blue Hot Wax or Performance Black Hot Wax, scrape and brush. Then apply High Performance Yellow Hot Wax and Red Hot Wax mixed 1:1, scrape and brush.

Gripwax:

Structure: A universal structure covered by two passes with the Yellow Structurite tool after scraping and brushing HP Hot Wax or before spraying HP LP will best suit these conditions.

Created by Ben Grasseschi, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
