10 A.M.
7.5K Open, shorter for younger racers, Freestyle
(classic for 1st/2nd graders)
Mixed gender interval start
https://www.skireg.com/silver-fox-trot

Forecast/Conditions: Overnight low 13, temperature at start 21. New manmade snow on top of transformed icy remains from rain. Air temperature warming up to 33 later in the day, sunny and low winds.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Red Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply a thin layer of Klister Red, heat and rub smooth. Cover with two thin layers of GripWax Red, corking smooth after each layer. If using skin skis, treat with Eco Skin Proof. For best results, apply Eco Skin Proof the day before the event.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.
