

WAX RECOMMENDATION **TOKO**[®]

Colorado Biathlon Mass Start

Snow Mountain Ranch, Granby, CO

Saturday, December 31

9 A.M. Bib Pickup, 10:50 A.M. 1st wave start

<https://www.coloradobiathlon.org/>

Forecast/Conditions: Overnight low of 20, upper 20s at start. New snow of 1-2 inches likely overnight and during the race with breezy conditions.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Then apply High Performance Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
