

# WAX RECOMMENDATION TOKO®

## Kinross Fort Knox Fairbanks Town Race Series #3

Fairbanks Youth Sports Sprint Festival

Jim Whisenant Ski Trails, Birch Hill Rec Area, Fairbanks, AK

Saturday, January 21

10 A.M.

1K/1.3K, Classic Sprint technique

<https://www.nscfairbanks.org/programs/races/town-series/town-series-3/>

**Forecast/Conditions:** Overnight low zero F, temperature at start approaching 5F. Overcast with a 50 percent chance of light snow the night before and during the event mixed with machine groomed older snow. Snow expected during the race. Light wind so no expected inversion at Birch Hill.

**Glidewax:** Apply Base Performance Blue Hot Wax, scrape and brush. Then apply High Performance Blue Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then alternate 2 layers each of Nordic GripWax Blue and GripWax X-Cold, corking between layers to mix.

**Structure:** A universal cross structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot

Wax will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
