

# WAX RECOMMENDATION TOKO®

## Red Barn Rendezvous

Osceola Ski and Sport, Camden, NY

Saturday, January 14

10 A.M.

10K Open, 5K U18, Freestyle technique

Individual start

Multiple laps

<https://www.skireg.com/red-barn-rendezvous>

**Forecast/Conditions:** Temperature in the mid- to upper 20s overnight with an inch of snow predicted to fall. The temperature will drop to 20 by race time with snow showers tapering off. Plenty of new, natural snow, machine groomed surface.

**Glidewax:** Apply Base Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush thoroughly.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
