Ponderosa State Park, McCall, ID

Saturday, January 7

6 P.M.

1K/3K/5K, Skate

Relay teams will be assigned

1 lap for each distance

<https://www.mccallnordic.com/racing/>

Forecast/Conditions: Temperature in the upper 30s Friday with a low around 30. Saturday high of 36 and 70 percent humidity with a 40 percent chance of snow. Saturday is a ski-free day; expect the tracks to be well skied-in.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Apply a 1:1 mix of High Performance Red Hot Wax and High Performance Yellow Hot Wax, scrape and brush.

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
